Carlos,

Lets talk about this next week.

Thanks,

Gary Miller, P.E.

Hi,

Pipeline funding could be prioritized for this - but it is your manager's call - to take some funds away from something else.

For an EE/CA - it can be done in RACs or potentially in START - depending on a variety of issues. The RA funding requested for the non-time-critical removal in FY11 falls in a strange category in CERCLIS - Priority panel Ranked Early Actions - so HQ would still need to send us funds in FY11. thanks,

Carlene,

The schedule calls for issuing the task order for the EE/CA in mid-October, so I think we're OK. Am I looking at this right?

Thanks,

money is probably still an issue, but bigger than that is that we needed the paperwork to the Project Officers by 8/1 at the latest to ensure there's any possible way to get a workplan that can be approved and obligate the funds by 9/30....Jo Ann knows more about the availability of funds at this time than I

Thanks Carlene, Rena had already let me know about it. On funding for the work, I

had discussed Gulfco with Jo Ann recently, and understand that there may be some money availability issues - so I plan to discuss that with Don when he gets back. Is that still an issue?

Thanks,

Hi, Gary,

In preparation for a 2 p.m. briefing that Charles and Jo Ann, etc. have on 2011 Workplanning, I looked at the plan for the non-time critical removal for Gulfco for next year. I looked at the SPIM manual regarding the correct coding for that money. I was planned correctly under the RA activity, but it had a removal action code of RV.....according to the SPIM, that should be RA, so I changed it. Just want to let you know when I mess with your data. Let me know if you have any questions. Thanks.
